## I Will

Desperate acts  
By desperate people  
Frozen hearts in pain  
Looking out through dirty windows  
When will this season change  
I am still just a baby  
Learning how to crawl  
Sometimes your words, they cut right through me  
Even with my armor on..... still

I will be strong - I will be brave  
Lessons I learn - On this walk of faith  
I will be strong - I will brave  
I will keep on - I will my soul I give

Everybody goes through changes  
Isn't that what life's all about  
Some things you have to learn the hard way  
But why must it hurt so much  
I want to trust, don't want to stop believing  
In the human heart, in my happiness  
Morning comes another breath I wake up  
Another chance to start again.... and this time

I will be strong - I will be brave  
Lessons I learn - On this walk of faith  
I will be strong - I will brave  
I will keep on - I will my soul I give

There have been times  
When I've been less than I could be  
There have been words  
I should have said I didn't speak  
Forgive me sometimes we all get weak  
But today now I know I can stand and be strong

I will be strong - I will be brave  
Lessons I learn - On this walk of faith  
I will be strong - I will brave  
I will keep on - I will my soul I give
