Send A Little Love

Saw a man just the other day
With the saddest look on his face
Like he'd just lost, the best friend he ever had
I asked him whats gotcha feeling so blue
Is there something I can do for you
He looked back at me, this is all he could say

Send a little love my way
Send it to me right away
Cause the world has gone crazy
Their shooting up our babies..... what we gonna do
Give a little love today
We need it now, we can't delay
Before it's all over.....remember that I told you
Give someone some love today

A young boy barely fourteen
Cut down before he could live his dreams
Is just one more story, on the news today
How many lives must we loose till we learn
Play with fire, gonna get burned
You can run, run, run, run, run, but theres no hiding place

Send a little love my way
Send it to me right away
Cause the world has gone crazy
Their shooting up our babies..... what we gonna do

Come on and stand up..... raise your hands up
It's morning time..... open your eyes wake up
Theres something in the air..... see it everywhere
I know you feel it too..... what we gonna do

Send a little love my way
Send it to me right away
Cause the world has gone crazy
Their shooting up our babies..... what we gonna do
Give a little love today
We need it now, we can't delay
Before it's all over.....remember that I told you
Give someone some love today
